

## *Final Call for Submissions*

### ***The Canadian Women Directors Catalogue: A comprehensive list of Canadian Women Directors***

Nightwood Theatre is seeking submissions from established and independent female directors to be included in *The Canadian Women Directors Catalogue: A comprehensive list of Canadian Women Directors* which will be launched by Nightwood Theatre and PACT.

#### **Project Description**

*The Canadian Women Directors Catalogue: A comprehensive list of Canadian Women Directors* is an opportunity for established and independent female directors to be included in a listing that will be distributed to the national professional theatre community. This initiative was motivated by the findings of *Equity in Canadian Theatre* – which brought to the fore the staggering disparity of opportunities for woman directors, playwright and artistic directors across Canada. By publishing this comprehensive list, we hope to create opportunities and raise awareness of the breadth and diversity of talent that women in the field of directing have today in Canadian Theatre.

#### **Catalogue Selection Criteria**

The catalogue will be divided into two categories: Established Director and Independent Directors. Please Note: not all submission will be included in the catalogue.
